

Avnish Chhabra

Frontend Developer

I am a React JS / Next JS developer with 3.5+ years experience who can turn complex ideas into functional web applications, using my knowledge of the latest trends in frontend development to create responsive, user-friendly interfaces that meet the needs of modern digital consumers. I am passionate about writing clean, modular, and maintainable code, following industry-standard coding practices.

Oyela (E-commerce)

06/2023 - Present

Gurugram

Projects/Achievements

- Developed multi-theme functionality where seller can choose and customize their own theme and make their store online with Oyela
- Developed seller profile page, product details page, cart page and payment success/failure pages
- Ranked sellers profiles at top in google SERPs by implementing server side rendering of seller's profile and product page using nextjs 14
- Developed npm package for infinite scroll and hosted on npm

— Software Engineer - React JS

1K Kirana Bazar

04/2022 - 03/2023

Gurugram

Projects/Achievements

- Contributed to the development lifecycle of the POS system using Next.js, Redux, and IndexedDB, enabling retailers to efficiently manage and process grocery and mall product transactions.
- Made end-to-end POS Banners feature, allowing users to add different kind of promotional offers with images in Web 1K admin panel. These dynamic offers are then accessible in the POS system via API calls, dynamically displayed on the home screen as eye-catching banners, attracting customer attention and driving sales.
- Implemented an advanced Price To Retailer (PTR) functionality, empowering retailers to effortlessly add their own products to the POS system with their desired pricing.
- Collaborated with a cross-functional team, including designers and backend developers, to deliver a highly functional and visually appealing POS system that met the specific needs of retailers and enhanced their business operations.

— Software Engineer - React JS

Createbytes

04/2021 - 04/2022

Gurugram (remote)

Projects/Achievements

- **LKS Dashboard:** Played a vital role in the software development lifecycle of the company, contributing to the design and integration of dynamic dashboards. Utilized React JS, Typescript, Redux, and Ant Design to create highly responsive and interactive dashboards, showcasing strong skills in frontend development and user interface design.
- **SendBiz:** Developed intuitive reusable UI components for the jobs, products, and services pages, with seamless integration of APIs. Utilized React JS, Redux, and Ant Design to build these dynamic UI components, demonstrating expertise in frontend development and API integration.
Link: <https://www.sendbiz.com>
- **CreateBytes:** Developed and implemented a portfolio website for CreateBytes using Next.js, showcasing a range of beautiful and reusable components. Incorporated server-side rendering to enhance performance and user experience.

– **Jr. Software Engineer**
OkieDokie Pay

04/2020 - 03/2021

Remote

Projects/Achievements

- Created reusable React components for various UI elements in the School Information System module (SIS) of ODERP
- Integrated react components with RESTful APIs of Attendance, Exams, Events and Books.
- Implemented responsive design to ensure optimal user experience across different devices.
- Utilized Redux for state management to maintain a consistent application state.

Education

- **Bachelor of Technology**
GNIT, Mullana (Kuk University)
06/2016 - 03/2020
72.5%
- **Higher Secondary Education (12th)**
GSSC, Shahabad (Haryana Board)
04/2014 - 03/2016
85%
- **Secondary Education (10th)**
CHHS, Shahabad (Haryana Board)
04/2013 - 05/2014
89%

Certificates

- **React - The Complete Guide**
UDEMY
01/2021 - 04/2021
- **Node.js Developer Course**
UDEMY
